Dear TV Producer,

Quick update to let you what is happening at The Playground.

For those of you who have been inquiring about audio mix rooms, we have not forgotten you. They are on their way and it's not a question of **if**, but **how fast** we can get them built...More on this in the next update. Audio aside, demand for our services is growing and this demand has led to expansion of our offline inventory and an increase in our online capacity which now offers 4 Nitris Suites.

Below are some of the highlights of some of the shows at Mega Playground that has been supporting technically and creatively to create countless hours of programming.

Clearly the success of these shows should be associated solely to the producers and creatives who conceived and produced them. Nonetheless, we can't help feeling honored to have them in house, and proud that these shows were supported by Mega Playground's technical and creative facilities.

The Shift, a docu series following homicide detectives in Indianapolis is produced by **Kathleen Minton and Pauline Mason** for **Investigation Discovery**; in its first season it gained the network's highest ever ratings and is now going into a second season of 13 shows.

In its first season, **D.E.A.**, produced by **Al Roker Productions**, has gained the highest rating ever for an original series on **Spike TV** to date and has been picked up for a second season currently being serviced by Mega Playground.

The producing team of **LC Inc.** is on to something. Most recently, they received a pickup for the **Comedy Central** series **Michael and Michael Have Issues** starring Michael Ian Black and Michael Showalter, and are gearing up for the 4th season of the hit **IFC** sketch comedy show **The Whitest Kids U Know**.

The First 48, produced by **Granada America**, is now in its astonishing 9th season. Mega Playground is proud to be serving **Granada America** on many of its shows, and especially on **The First 48** since its 5th season to date.

Comedy Central's, **Important Things With Demetri Martin** was the network's most-watched series premiere since Chappelle's Show in 2003. The comedian's Wednesday night debut drew 2.4 million viewers and a 1.5 rating among adults 18-49

The season finale of **Discovery Channel's Storm Chasers**, produced by **Original Media** clocked a 1.7 rating Sunday night , garnering more than 3.2 million viewers, officials said Tuesday. The episode ranked as the night's No. 1 show in ad-supported cable primetime for men 18 to 34. The strong numbers propelled **Storm Chasers** to the highest Sunday-night telecast on Discovery, in terms of adults 25 to 54 and men 25 to 54 delivery, since July 2007.

Mega Playground services offline, onlines, dubs, conversions, Close captioning, for all of the shows above, and many more.
